Social Sorority and Fraternity Database Update Form

If at any point during the semester a chapter must make changes to the Student Organization Database, the Social Sorority and Fraternity Database Update Form must be completed and returned to the Council Advisor in the Office of Sorority and Fraternity Affairs by the Chapter President in person.

* The Council Advisor will update the on-line database information before the update is final.

Registered organizations will register with the Center for Student Activities and Involvement to comply with the University of Florida’s Student Leader Eligibility. In addition, through their registration, registered organizations will be posted on the Center for Student Activities and Involvement’s website which will provide access to various university departments for services.

Name of Organization: ____________________________________________________________

Change Needed: ______________________________________________________________________________________
__________________________________________________________________________________

Reason for Change: _______________________________________________________________________________________________
